Lotus Notes and Domino: A Look Ahead

Speaker Name & Title

IBM

Lotus

Agenda

- Updates from Past Year
- "~~Hannover~~" Lotus Notes and Domino 8 in Beta
- Plans for Future Releases
- Strategic Directions
- Summary

IBM

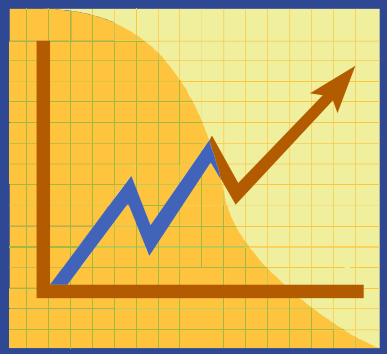
Lotus

Lotus Notes and Domino Business Highlights

Strong Financial Performance

- 2 Year sustained double-digit growth
  - 9 consecutive quarters
  - 30% growth in 4th quarter for Lotus business
- Growth rate exceeds market

"Lotus benefited from strong momentum in its Notes/Domino family of collaboration products and broad adoption of its enhanced version of Sametime, which shipped in the third quarter of this year."



Growing Customer Base

- 130M+ seats of IBM Lotus Notes® and Domino® licensed
- Net increase of 2,500 customers worldwide
- 400 companies using Lotus Notes Access for SAP solutions feature

IBM®

On-Time Product Delivery

Releases shipped in 2006

- IBM Lotus Notes 7.0.1 on Linux® *(new!)*
- IBM Lotus Notes Access for SAP solutions Feature

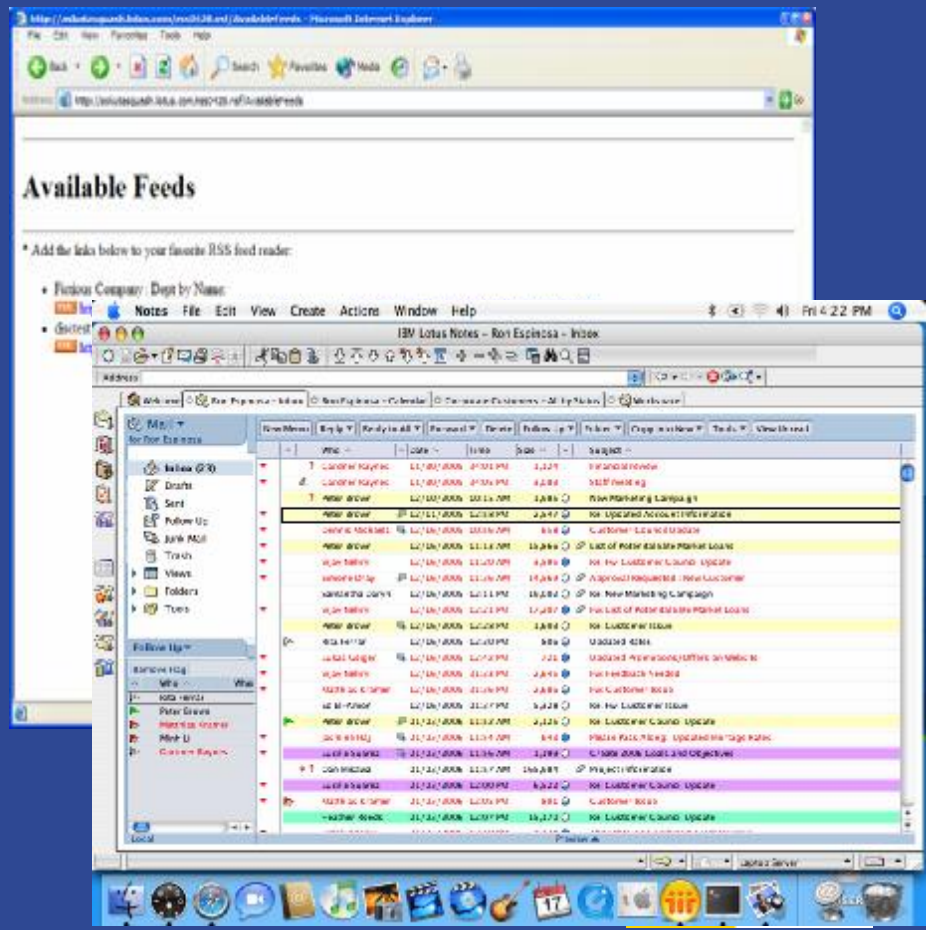
- IBM Lotus Notes 7.0.2 on:
  - Microsoft® Windows®
  - Mac *(new!)*
- IBM Lotus Domino Web Access 7.0.2 on:
  - Microsoft Windows
  - Linux
  - Mac *(new!)*
- IBM Lotus Domino 7.0.2 on:
  - Microsoft Windows
  - Linux
  - IBM AIX®
  - Sun Solaris
  - IBM i5/OS®
  - IBM zOS®

IBM®

Lotus.

Lotus Notes 7.x - Driving Fastest Upgrade Cycles in History

- Lotus Notes on a USB Memory Stick
- RSS support
- Blog template
- iCal import and export
- Lotus Notes Access for SAP solutions feature
- Linux
- Mac
  - Rich client and browser
  - Mac OS X 10.4
  - Power & Intel



IBM

Our Commitment to You for Notes and Domino 8

- A fully integrated client
- Protection for existing investments
- No rip-and-replace overhauls
- OPEN

Lotus

Lotus Notes 8 Re-Invents Business Collaboration

Far more than e-mail:

- Built on open eclipse.org standard
- Supports composite applications
- And Eclipse plug-in extensions

Integrated at-your-fingertips access to applications

- Integrated IBM Lotus Sametime® 7.5-based IM and presence awareness
- Optional integration: Lotus Connections/Activities and Lotus Quickr™
- Embedded tools: presentations, documents, spreadsheets
  - Support for Open Document Format (ODF)
  - Support for MS Office file formats
  - Open Lotus SmartSuite® files
  - *No additional charge to Lotus Notes 8 customers*

Innovation in Collaboration

- Link together what we have
  - Lotus Sametime, Lotus QuickPlace®/Quickr, Lotus Connections/Activities in sideshelf
- Incorporate Web Standards
  - RSS
  - ATOM
- Explore new modes
  - Activities/Lotus Connections
  - ODF Editors
- TCO and Time to Value
  - Build on the heritage of Release 6 and 7
    - Scalability
    - Admin client
    - Security features
    - Extended Mail Management support

IBM

Lotus

The Buzz Around Lotus Notes and Domino 8 Beta

- A vibrant, engaged community of testers
  - 4,000+ users within IBM
  - 175+ companies in multiple programs
    - Design Partners Program
    - Managed Beta Program
  - Public beta begins in Q1
- Early favorites
  - The fresh user interface
  - RSS reader
  - Activities
  - Documents, Presentations, Spreadsheets editors
  - Mail threads
  - Intelligent addressing
  - New Contacts (Personal Address Book) automatically-populated
  - Composite applications

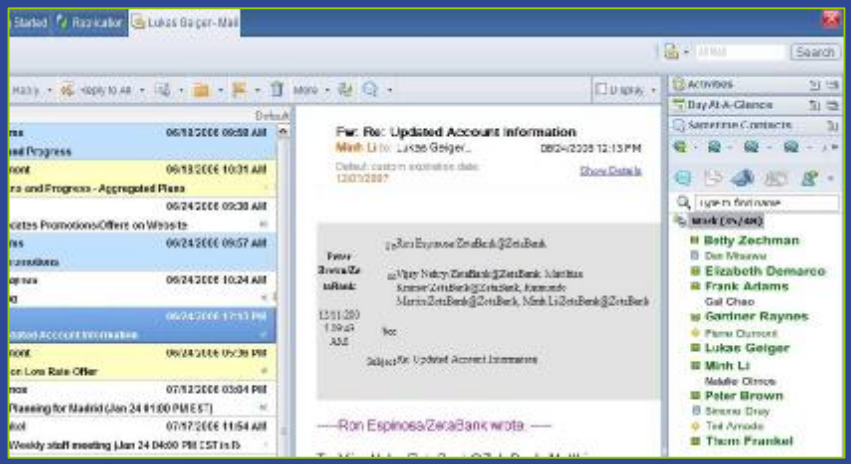
IBM

Lotus

Lotus Notes 8 UI and Design Excellence

New user-friendly look-and-feel driven by your feedback

- 118 design sessions at Lotusphere 2006
- "Users First" initiative launched in March 2006: 1,925 participants
- "Renovations-on-the-Road" sessions at customer sites
- IBM Technology Adoption Program: 1,115 users
- Design Blog (Mary Beth Raven)



The Result? Early Beta feedback

"The UI hands down is number 1."

"This puts an end to the *'I like Outlook because it looks good'* statements."

IBM

Lotus

You're Making Us Blush..

"The Lotus Hannover release is pretty frigging slick.... IBM has just completed a multi-year refactoring of Notes/Domino and the benefits are going to be felt from here on in.

The new UI is sweet ..."

James Governor,
Industry Analyst with Redmonk

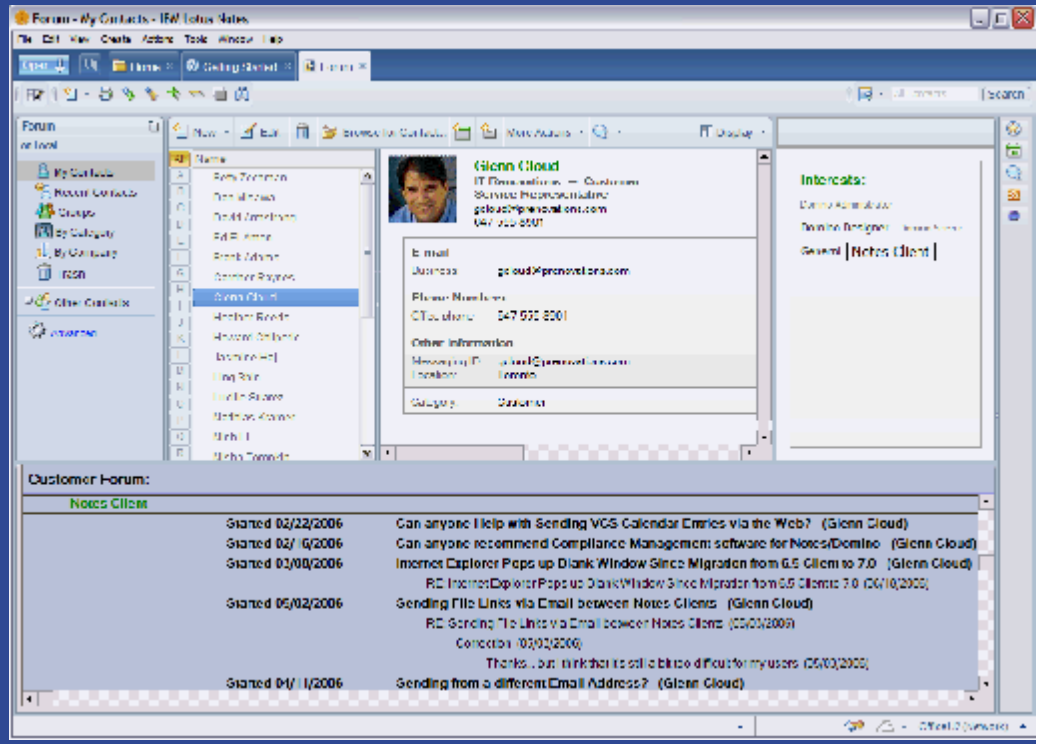
IBM

Lotus

Demonstration

Leadership in Application Development

- Openness thru Standards
- Continuity:
  - Run/extend existing applications
- Tools
- Conform to IBM Services Oriented Architecture (SOA)
  - Web Services
  - Consistent rich client architecture across
    - Lotus Notes, Lotus Sametime
    - Lotus Expeditor SDK and runtimes



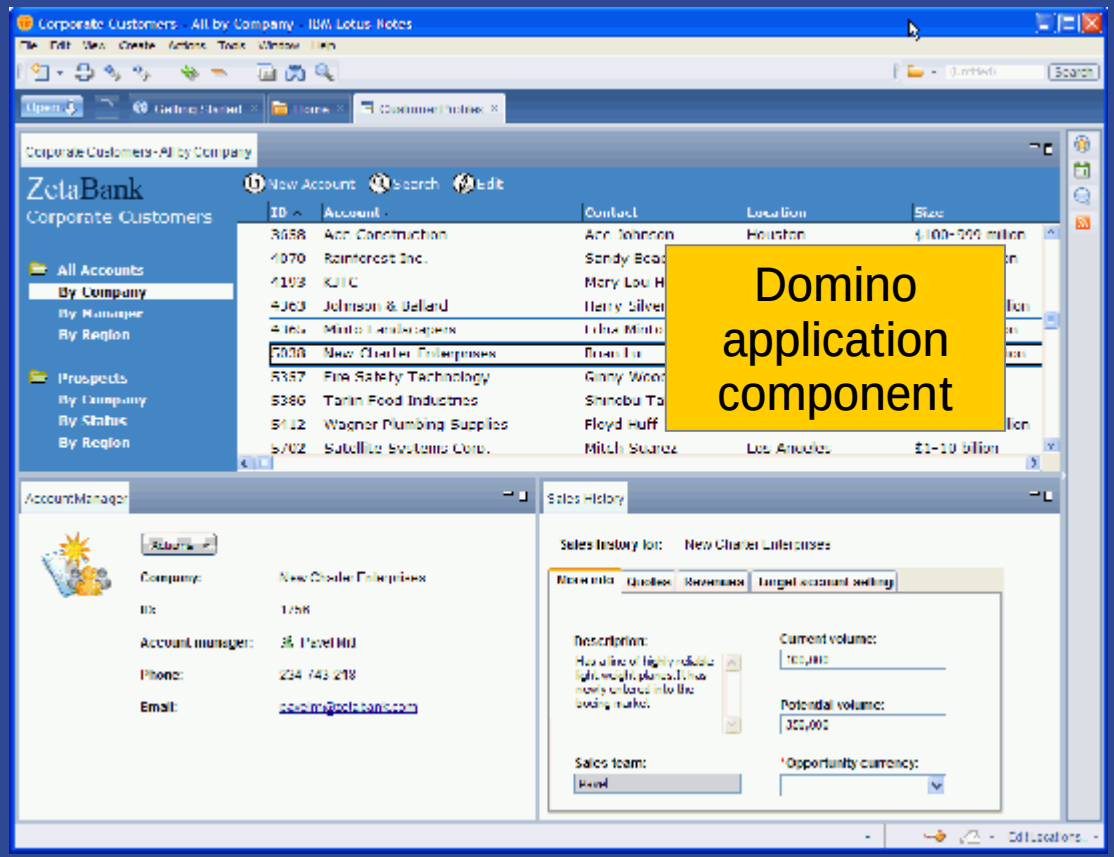
Composite Application

IBM

Lotus

All Domino 8 Apps are Composite App Ready

- Domino application elements can become components of new Composite Applications
- Domino apps can be wired to non-Domino apps via new design features and tools



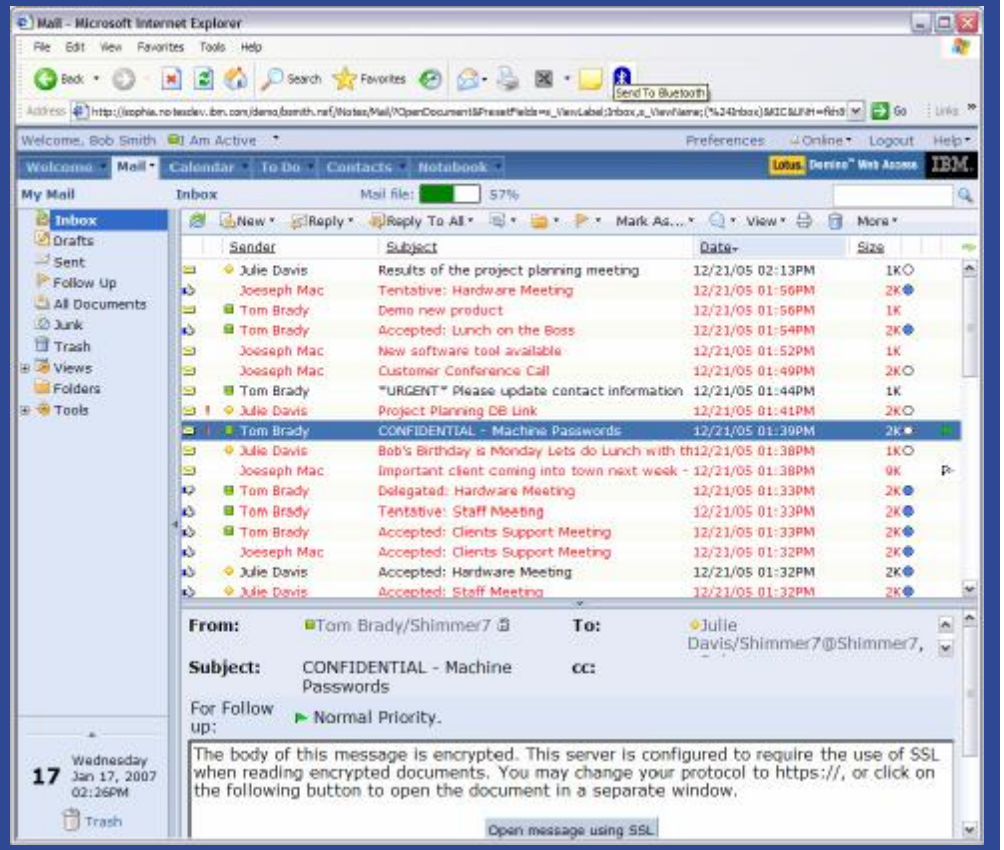
IBM

Lotus

Demonstration

Lotus Domino Web Access 8: Look-and-Feel Closer to Lotus Notes!

- Updated User Interface
- Single, merged (mail8.ntf) mail template
- Improved contact management
- Lotus Notes/Internet password management
- Improved Out-of-Office
- Lotus Notes 8.0 interoperability & co-existence
- Leverage of Lotus Domino 8
  - Performance enhancements
  - LTPA2 Token support

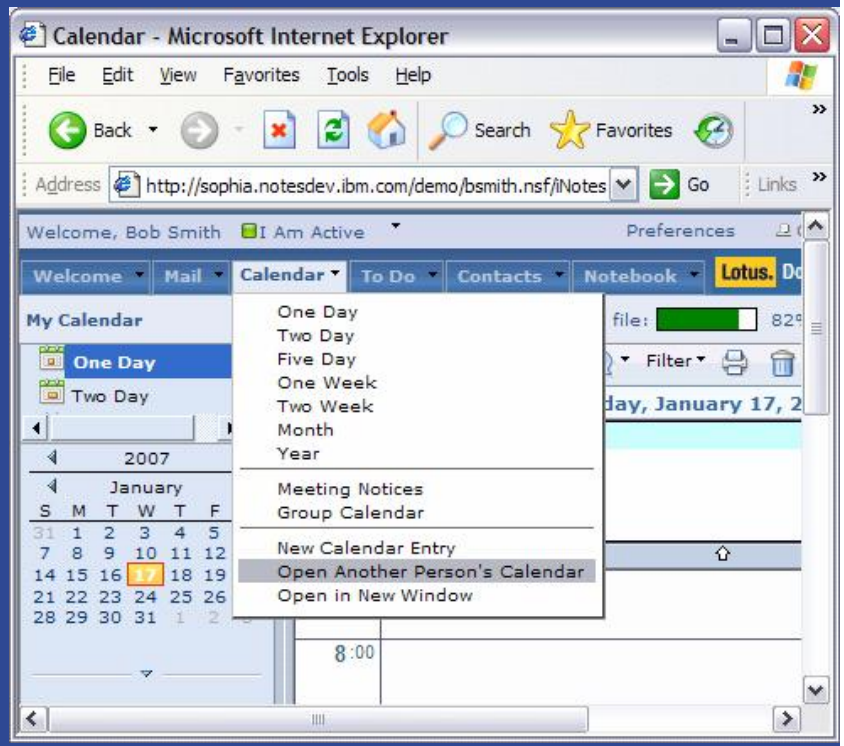


IBM

Lotus

Lotus Domino Web Access 8: Improved Usability & Productivity

- Preview Pane
- Improved calendar delegation
- Integrated IM Contacts List
- Enhanced Spell Check engine and dictionary integration
- Feed-enabled mail files (RSS/ATOM)
- Calendar filtering
- Default location for resources
- Support for dynamic view column updates
- Improved integration with IBM WebSphere® Portal software



IBM

Lotus

Lotus Domino Strategy

- The integrated messaging & collaboration platform of choice
  - Highly available & scalable messaging
  - Easy to build/deploy collaborative applications
  - Client access choices
  - Integrated end to end security features
  - Built in administration tools
  - Platform choices
  - Partner ecosystem of supporting products

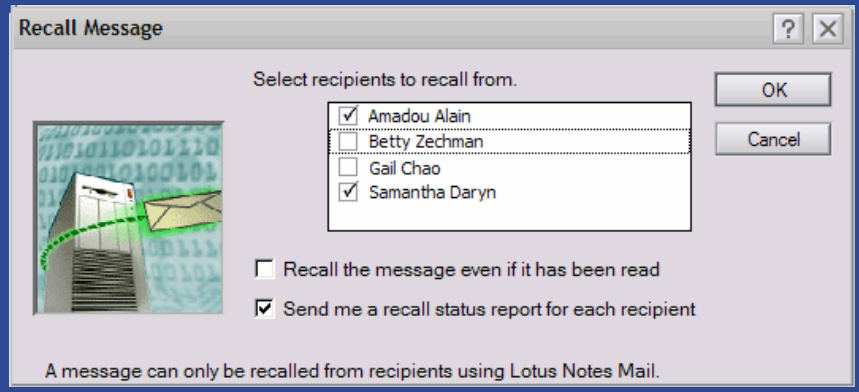
- Investment protection
  - Simple to upgrade - no hardware “Rip & Replace”
  - Compatibility of applications - cross-version & backwards
  - Opportunity for significant TCO reductions with every release

IBM

Lotus

The New Lotus Domino 8

- New and enhanced features
  - Message recall
  - Improved out-of-office
  - Message threads
- Open applications infrastructure
- Improved Integration with WebSphere Portal
- Support for IBM DB2® as alternative data store
- Dramatic improvements in
  - Administration, Directory, Security features, Performance & Efficiency
- All this and no rip-and-replace



IBM

Lotus

Lotus Domino 8 Server Improvements

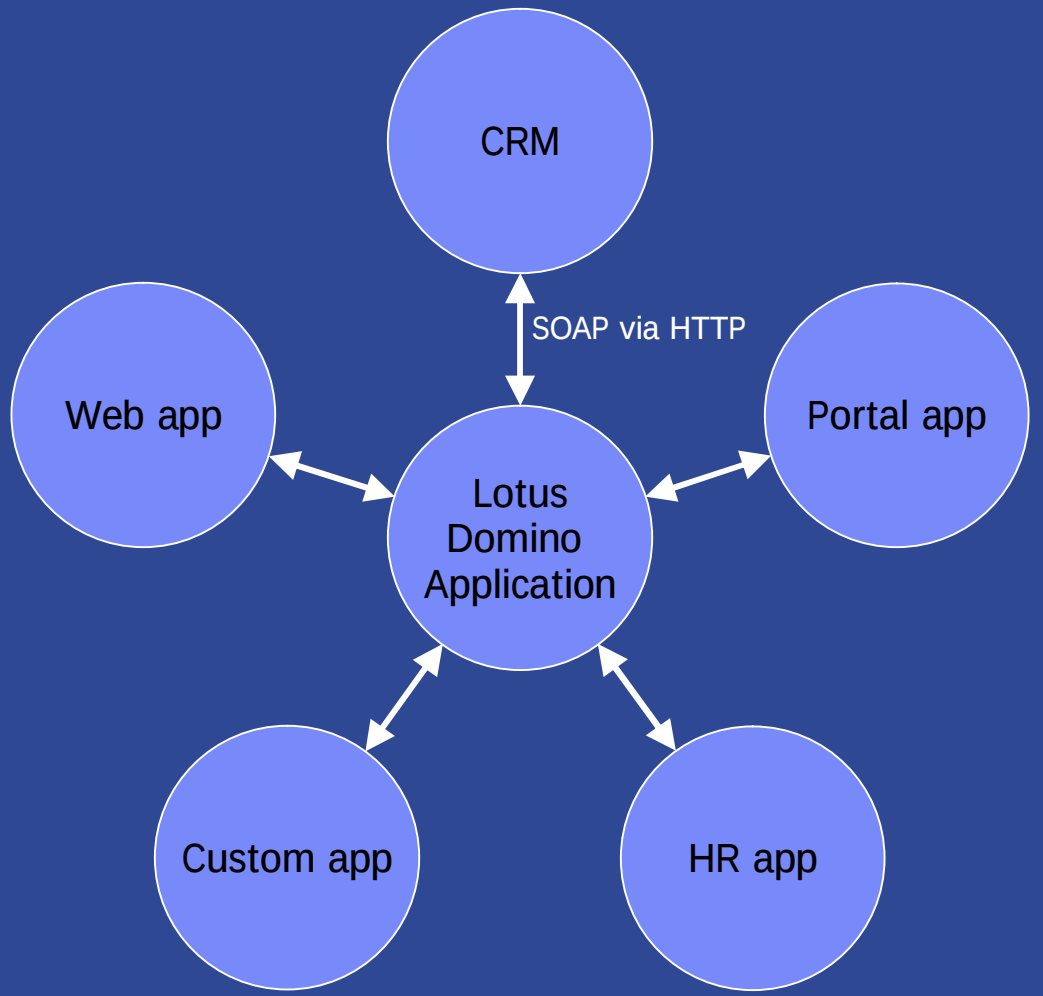
- Administration
  - Lotus Notes 8 server-managed clients
  - Lotus Domino Domain Monitoring improvements
  - AdminP performance
  - Redirect bookmarks after DB moves and deletes
  - Automatic in-box cleanup
- Directory
  - Entitlement of IBM Tivoli® Directory Integrator for use with Lotus Domino
- Security features
  - Internet account lockout due to password entry failure
  - Stronger encryption keys and simplified key rollover
- Performance
  - Tuning improvements help reduce I/O, CPU and storage costs
  - Improve CPU

IBM®

Lotus.

Web Services in Lotus Domino 8

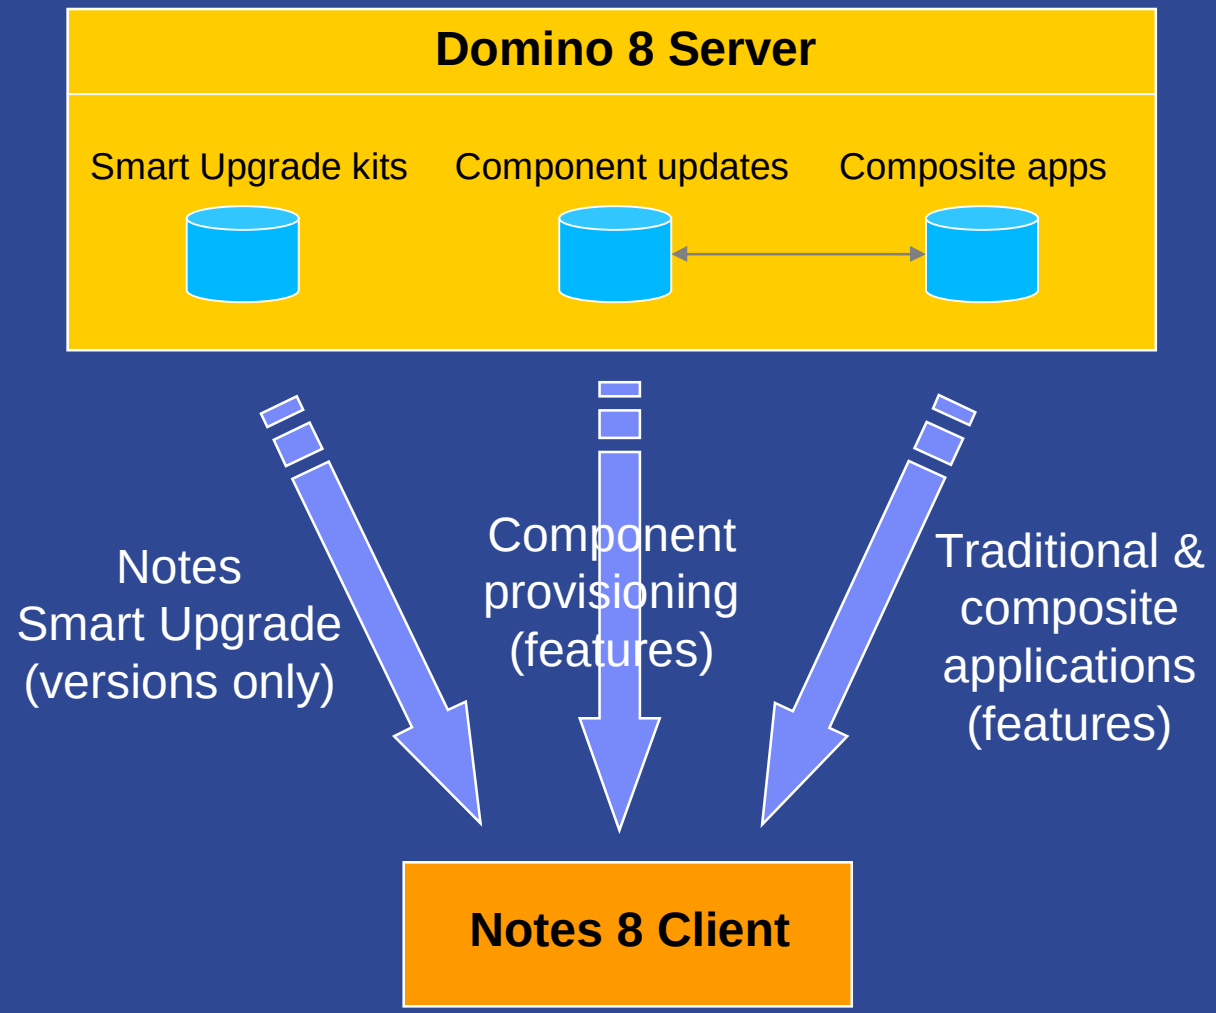
- Web services consumer and provider in Lotus Domino 8
- Web services can be built into Lotus Domino applications
- New design element accessed within Lotus Domino Designer 8
- Click-and-select import WSDL
- Supports LotusScript and Java
- Web Service Interoperability improvements



IBM

Lotus

Managed Client Overview



IBM

Lotus

Platform Versatility

- Microsoft Windows 2003 Server (Standard & Enterprise Edition)
- Microsoft Windows 2003 x64 Edition
- x86 Linux
  - Novell SUSE Linux (SLES) 10 (32 bit & 64 bit hardware)
  - Redhat Enterprise Linux (RHEL) 5 (32 bit & 64 bit hardware)
- Sun Solaris 10
- IBM System p™: IBM AIX 5.3 & 5.4
- IBM System i™: i5/OS (IBM OS/400®) v5R4
- IBM System z™
  - IBM z/OS® 1.7 and higher
  - Novell SUSE Linux (SLES) 10
  - Redhat Enterprise Linux (RHEL) 5
- Native 64-bit Lotus Domino
  - Beta planned to be available at Lotus Domino 8.0 GA
  - GA planned for in 8.0.x maintenance release
- 32-bit platforms will continue to be supported

Lotus.

Plans for Lotus Notes and Domino 8.0.1

- Lotus Notes
  - Search extensions
  - Mac
  - iCal subscriptions
  - Notes-on-a-Stick
- Lotus Domino
  - Platforms: Native 64-bit support
  - Further reduce I/O footprint
  - FIPS 140 Compliance for Lotus Notes mail
- “Next-Generation” Lotus Domino Web Access
  - Continued exploitation of AJAX for enhanced UI
  - Adaptive Client, optimized for low bandwidth connections
  - Further integration with Lotus Notes 8

IBM

Lotus.

Plans Beyond Lotus Notes and Domino 8.x

- Some Boring Consistency
- Releases every 12-18 months
  - No waiting for 'mega' release every 5 years
- Alternating between client and server focus
- Release-to-release compatibility
  - No rip-and-replace overhauls

IBM

Lotus

Plans for Lotus Notes and Domino "Next"

Focus on the server

Lotus Domino

- Directory independence
  - allow first-class use of Active Directory or LDAP
- Simplified security management
- Support alternate authentication
  - Notes ID optional
- Management of e-mail storage costs
- Quality of service improvements
  - better Notes failover
- Modernize Web/ HTML programming

Domino Web Access

- Activities integration
- Domino Administration policy integration
- Improved mobile device support

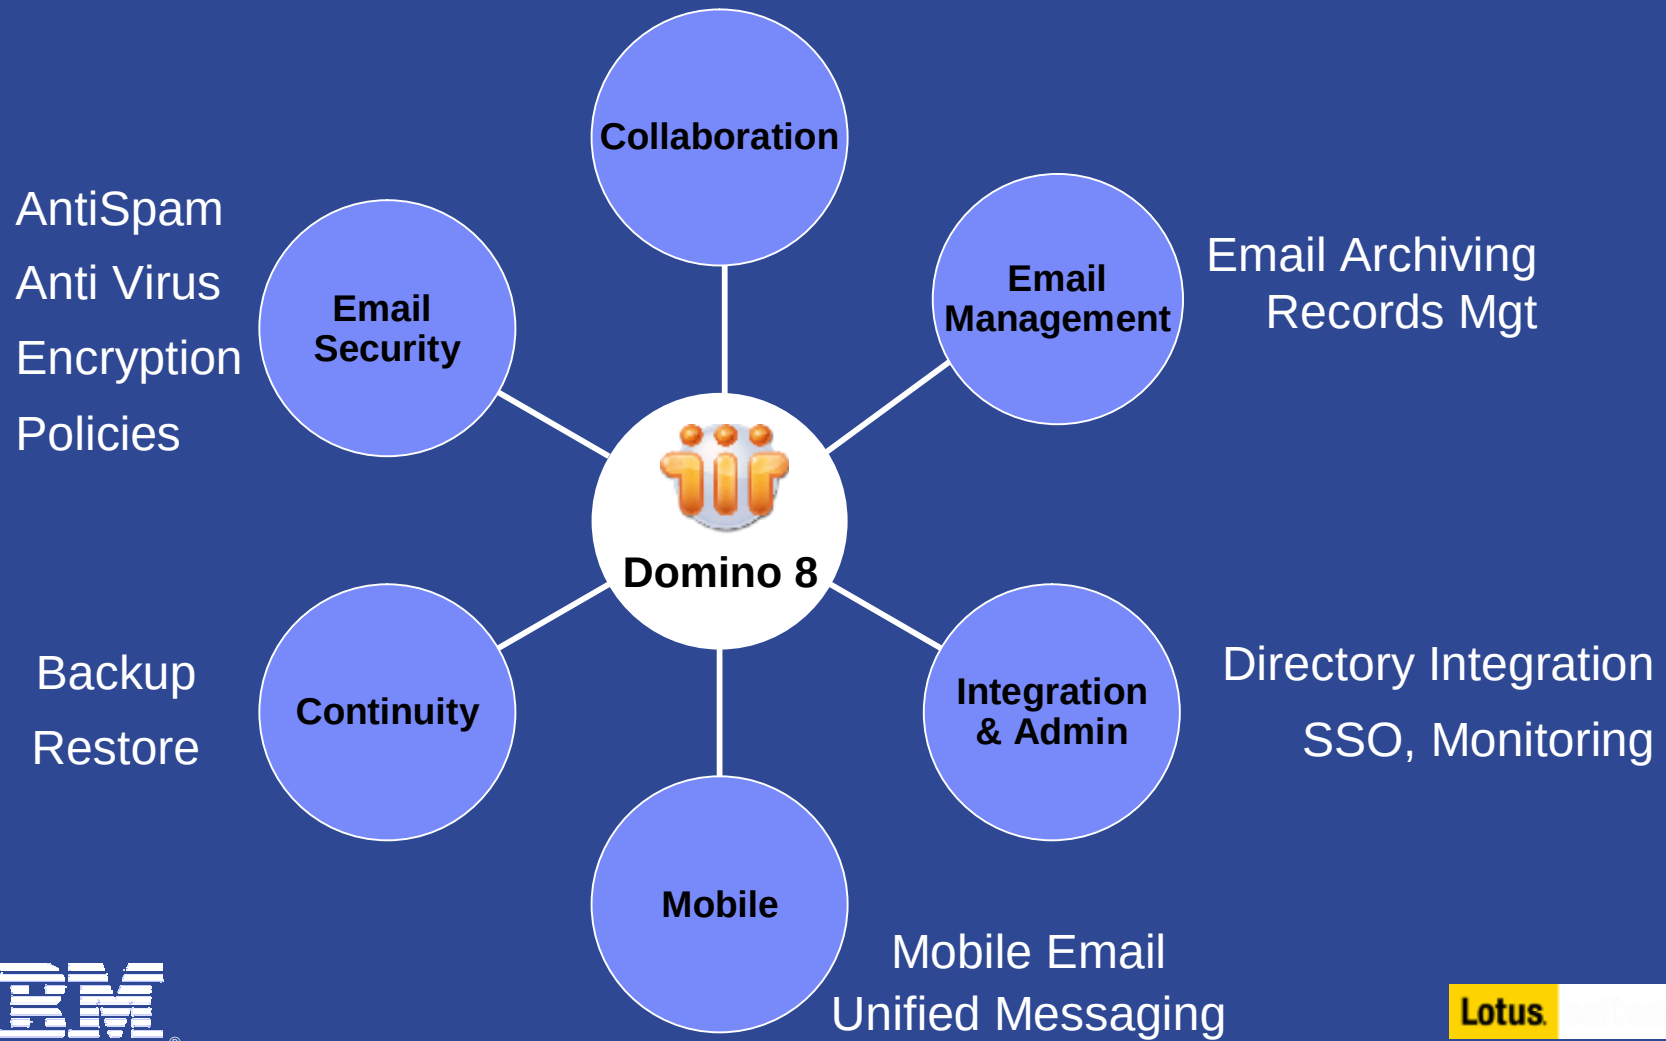
…But ongoing client work

Lotus Notes

- Integration of "Traditional PIM apps" with social software and doc mgt
- Calendaring enhancements
- Extended client provisioning
- Deeper RSS/Atom integration
- Extended search capabilities

Lotus Domino Ecosystem - IBM + Business Partners

Lotus Sametime, Lotus Connections, Lotus QuickPlace, Websphere Portal



IBM

Lotus

Future Directions for Lotus Notes & Domino

Lotus Notes "Next"
- Continued UI refinement
- Composite application extensions
- Social software extensions

2008/2009

Lotus Domino "Next"
- Reduce cost of storing e-mail (e-mail mgt)
- Extended directory support
- Support for alternative forms of authentication

2007/2008

Mid 2007

Q3 2006

Public Beta

Note: Information is subject to change

IBM

Lotus

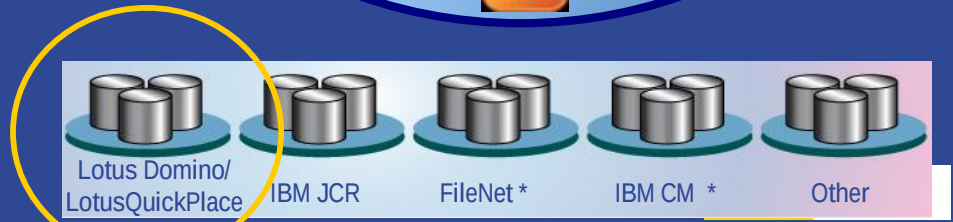
New IBM Offerings for Lotus Notes and Domino

Introducing IBM Lotus ~~Quickplace~~ Quickr 8

The Fastest way to share everyday business content

- The Next Gen for Lotus QuickPlace
  - Lotus Quickr connectors can save and retrieve to/from existing QuickPlaces
  - Current Quickplaces automatically appear
  - An intuitive extension of current UI
  - Entitlement for QuickPlace customers
- Set of connectors to desktop apps
- Fully supports Notes 6.5, 7, and 8!
- Open architecture for developers
- Integration with Domino and JCR content stores
- Available mid-2007

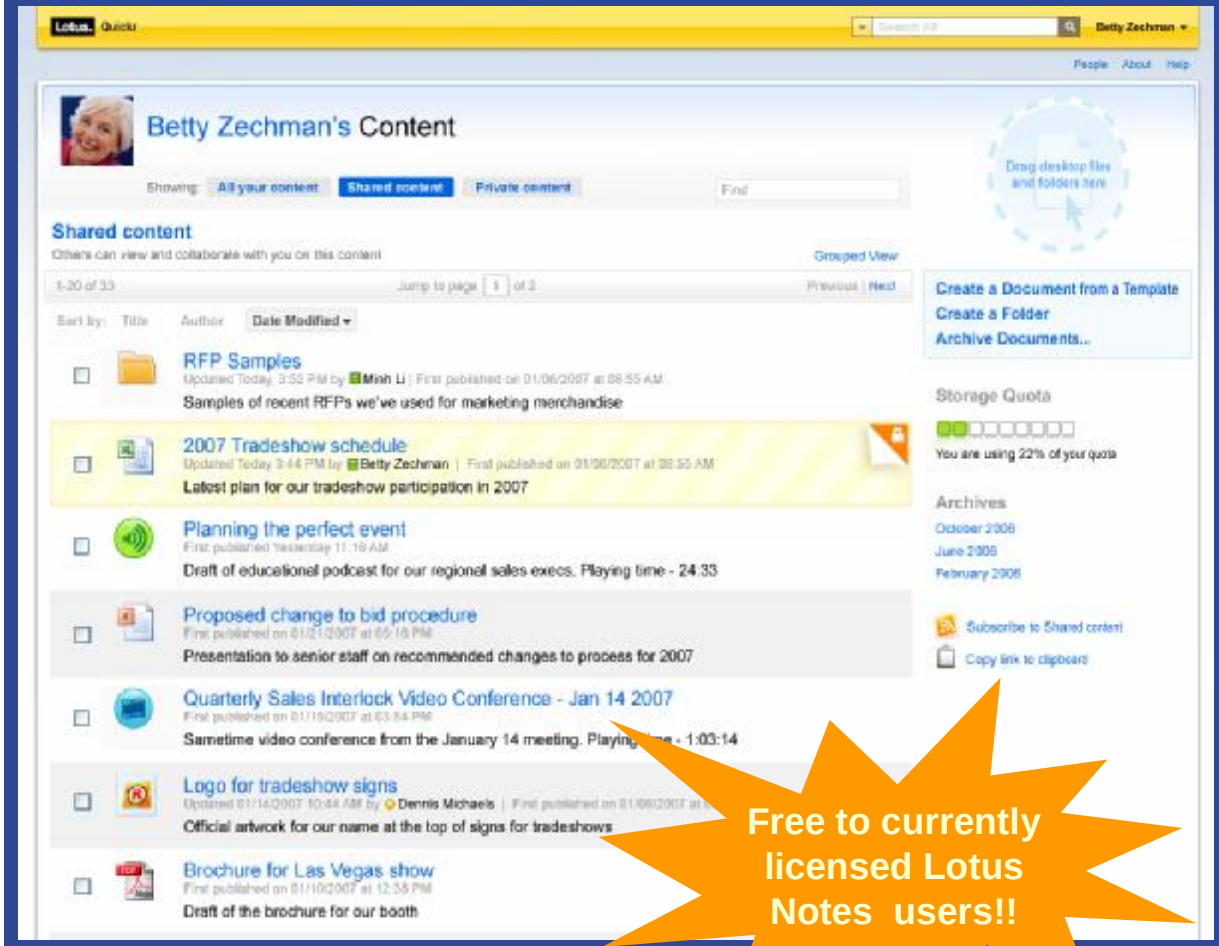
www.ibm.com/lotus/quickr



* - Requires separate purchase & supported after Lotus Quickr release 8.0

Lotus Quickr 8 Personal Edition

Personal Edition provides a "starter set" of Lotus Quickr capabilities



- Fast & easy on-line personal content library
- Familiar folder metaphor
  4. Easily move content to secure, managed servers
     1. Private content
     2. Shared content
- Includes Lotus Quickr Connectors
- Available 2H 2007

Lotus.

IBM Proventia® Network Mail Security System

- Spam control
  - Multi-level message analysis
  - Blocks latest image spam at ~98%
  - Phishing email checks
  - Leverages massive IBM Proventia Filter Database
- Integrated ISS intrusion prevention technology (IPS)
- Zero-day protection from viruses, spyware, and other malware
- Sophisticated ruled-based mail policy management
  - Social security & credit card # detector for inbound & outbound email
- LDAP integration with IBM Lotus Domino

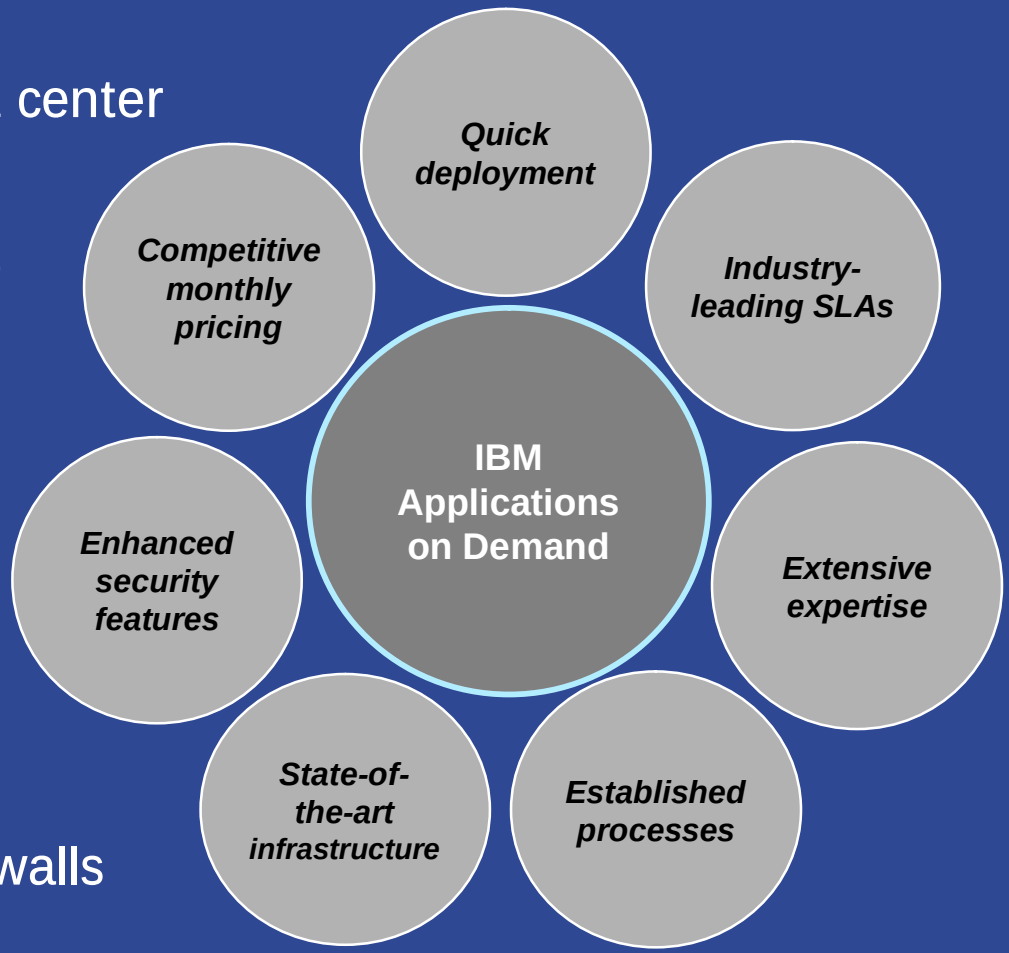
IBM

Lotus

IBM Applications on Demand

IBM Hosted: Lotus Notes, Lotus Sametime, Lotus QuickPlace/Quickr

- Hosting in a world-class IBM data center
- Best of breed app management
- 24x7x365 Expert Domino support
- Anti-virus and anti-spam
- High Availability
- Disaster recovery
- Wireless support
- Web access
- Archiving
- Predictable monthly billing
- All server hardware, storage, firewalls



http://www.ibm.com/services/aod

Lotus

IBM CommonStore Archive, Discovery & Compliance

IBM Information Management & Lotus Domino teams are working together to take CommonStore to the next level

- Simplified installation, configuration and administration
- Scalable: single server or across multiple servers
- Reduces cost of ownership by adding autonomics
- Reduces storage: strong de-duplication rates across emails and attachments
- Integration with Domino: installation, deployment, admin UI, search, doc

IBM

Lotus

Summary

Lotus Notes and Domino 8 Re-Invents Business Collaboration

- Lotus Notes 8 built on the open *Eclipse.org* standard
- Transforms the in-box into a high performance integrated client
  - Anchored by Lotus Notes, extended with Lotus applications, composite applications and “Eclipse” plug-ins
- Embedded documents, presentations, spreadsheet tools
- Backward compatibility: no rip-and-replace
- An exciting roadmap
- Visit www.ibm.com/lotus/nd8 for beta details!
